- William Baloyi
Owner

WB&J Building Technology is 100% Black owned company established in 2005 and managed by individuals from historically disadvantaged backgrounds who have extensive experience in the building and construction industry.

WB&J Building Technology believe that construction and design are the only solutions of defending and solving their clients' problems and needs. Its dynamic team is always willing to work day and night to meet their clients' deadlines.

With years of extensive experience in the industry William Baloyi and the team believe that the interests of their customers come first and always strive to ensure quality completion of all the tasks given to their company and that is what ultimately catapulted their business to the top.

Being so passionate with their work, WB&J Building Technology team looks forward to new clients and working on a range of interesting projects in the future.

OUR GOALS

To provide the right service the first time and become the first choice in meeting our customers' needs

To provide fast quality service and cost effective solutions to all our customers

Constantly adapting and evolving to the changing technological needs of the various business sectors

To be an inspiration to employees and ensure their success by allowing them to enjoy the benefits of profit sharing and progressive growth within the WB&J organization

Quality Work

Innovation

Consistency

Safe and secure workmanship

Honesty and responsibility

Provision of a highly skilled team to perform the work required

Clear communication channels with our clients to ensure that their needs are attended to and addressed accordingly

Empowering of emerging companies by working closely with them under joint ventures or any profitable agreement to ensure that at the end of the project such companies are able to stand on their own, create and sustain more job opportunities

Johannesburg

A modern lounge area featuring a textured stone wall. In the center is a light-colored sofa with a patterned backrest and armrests. Two floor lamps with white shades and metal stands are positioned on either side of the sofa. The floor is covered with a dark, patterned carpet. A yellow banner with the text 'RAND MERCHANT BANK' and 'Johannesburg' is overlaid across the middle of the image.

— Reading Road

"WB&J Building Technology's work standards are exceptionally good, as the team works long hours and has never missed a deadline.

One of the things that impressed me the most, was the fact that offices are clean and ready for the corporate working day after the weekend of building work."

- Nick Smith
